CAMBRIDGE

The Cambridge Reversible Sulky Plow is the highest type of plow of the twentieth century—constructed on correct, scientific and mechanical principles. It is the result of a constant endeavor to produce a perfect riding plow, and has 62 years experience in plow making back of it. The demand of the times has been for a better riding plow—the Cambridge meets that demand and only needs to be tried to convince the farmer that it is the superior of any riding plow ever before produced. It will do splendid work equally well on level land or on the hill-side; will leave the soil smooth and free of ridges and dead furrows; works with lighter draft than any hand plow doing the same work—easy on man and team. Made in two sizes and from the best malleable iron and high grade steel; improved and extra heavy steel wheels with dust cap and removable chilled boxes. Easy to manage, always under perfect control.

Stanton.

You will see in this issue the sale of lots in Patrick's addition to Stanton which means much for that town. The coming town east of Lexington, Stanton, three years ago, had a population of about three hundred, three stores, one blacksmith shop and a common graded school, but now has eight stores, bank, canning factory, and a High School of four teachers, and not an empty house in its incorporate limits, and a population of about six hundred. In a short time work will begin on the Stanton College, a magnificent brick structure to cost \$20,000, this house to be built on ten acres of beautiful rolling land donated by J. C. Patrick for that purpose which land adjoins the lots to be sold on the east. And further east about one-fourth of a mile lies the Patrick Portland Cement in quantities untold which will be utilized in the near future. With these facts before you why not Stanton come to the front?

Remember the 11th day of January, come to the sale and buy you a lot and help boom the once finished old town into a modern little city.

Digs up Old Grape Shot.

Last week while digging parsnips in the garden James Barker dug up a grape shot which weighs twelve ounces and shows that some of the ball has rusted away. The ball was hard as the best quality of steel. It is said that the cannon balls that were used in the famous battle of New Orleans in which the Kentucky militia took such an important part, were made at the old forge in this city. Grape shot we learn was also made here. It is quite probable that this grape shot dug up by Mr. Barker was made at the forge here at about that time 1812 and was possibly taken by some one of the old citizens as a relic. Mr. Barker prizes his find very highly and no doubt will find some one willing to pay him a good price for his rare property.

MARRIAGES.

Mr. Mackey Tipton of Furnace, and Miss Ida Crow, daughter of Albert Crow, were married at the home of the bride's father, on Little Creek, Wednesday, December 25.

Mr. Aquilla Snowden, of this city, and Miss Frankie Curtis, of Little Creek, daughter of A. J. Curtis, were married at the latter's home on Tuesday evening the 24th.

We acknowledge receipt for handsome calendars from G. W. Anderson, Jr. Poultry Hides & Co., Clay City National Bank, C. Shimfessel, General Merchandise, Swann-Day Lbr. Co., General merchandise, R. C. Mansfield & Son, Flour Mill, Winchester, Winchester Bank, and Eastern Ky. State Normal at Richmond.

Mrs. Everett Mofield died in this city Saturday last of consumption. Burial Sunday in the cemetery.

Tuberculosis Exhibition.

Shortly after the holidays the National Tuberculosis Exhibition which has been at Jamestown exhibition all during the past summer, will be brought to Louisville where it will be open for two weeks. It is being brought to the State by the Kentucky Anti-Tuberculosis Association which hopes through its educational influence to awaken over the State a greater interest in the fight against tuberculosis and to impress upon the people in every county, including our own that there is a great opportunity and a great duty in this effort to stamp out the great "white plague", consumption.

In the last few years yellow fever has lost its terrors and tuberculosis will doubtless also cease to be a source of dread when the people have been taught how to prevent it.

Consumption, according to all authorities now-a-days, is not hereditary but is communicated through carelessness from victims to the rest of the family, and, if taken in time, it can, under proper treatment be cured.

The meeting will be opened Jan. 10. No admission and the halls will open all day.

Tuesday was the last day for the huntsmen and from what we can learn good use was made of

the day, it being a bright ideal winter day. Results were as usual very unsatisfactory with most of the boys.

Charlie Short, who has been visiting relatives in the county for several days, has returned to his work in a paper mill at Middleton, Ohio.

Mr. and Mrs. Robert Niblack of Spout Spring, are rejoicing over the arrival of a new boy at their place.

SPOUT SPRING.

James F. Clark spent Sunday with his cousins, Moses and Shelt McKinney.

Mr. and Mrs. Marion McKinney visited the latter's sister, Mrs. Henry Tuttle, at Ford this week.

Harrison Powell, of White Oak, and Miss Lizzie Snowden daughter of Marion (Bee) Snowden of this place were married here Christmas eve.

The following officers were elected at the Masonic anniversary Friday: Pete Mountz, Master; R. L. Tipton, S. W.; W. F. McIntosh, J. W.; L. B. McIntosh, Secretary; Morgan McKinney, Treasurer; S. G. Baker, Tyler.

What makes you look so white, so white?
Said Bach'lor on parade;
"I'm dreading what we've got to face,"
The Woman Hater said.
"For Leap Year is upon us,
And the girls will use a wire,
They'll hook us like a poodle
When the licenses expire.
An' they'll dump us in the wagon
An' we're off to find a squire,
For the're laying for the bach'lor

The big bet for this month will be Taft. The Atlantic fleet will approach the Horn with a bent spy-glass, looking around for Japs. "O, Hell," whispered in Uncle Joe Cannon's ear, will be the pass-word to get anything before Congress. Japan will have a slack month at the Nagasaki navy yards, and will build only twenty-seven more war ships. The guess on Roosevelt's future for this month will be that he will become a Congressman after he leaves the White House, and will go into the ring with Williams and DeArmond. Mr. Bryan will walk around the Democratic nomination with a hammer, to see if their is any place where he could nail it down. Money will continue shy, rising out of range and flying eight miles. Mr. Lawson will put his mask on and go back into the game, jobs will continue to run when they see you coming, and sometime during the month Mr. Morgan will decide whether he has all the money he wants now, or if he will continue the panic.

After the 20th we shall be under the influence of Aquarius the water carrier, the eleventh sign of the Zodiac. Under this favorable sign, Prohibition will establish about eighty more storm centers, booze will run another mile in nothing south of the Mason & Dixon line, and Carrie Nation will work with a hatchet in each hand. To quote an Omar of the Oklahoma desert,

Hush little bar-room,
Don't you cry—
You'll be a drug-store
By and by.

January was named after Janus Bifrons, known as "Two-Faced Janus." He was the originator of what is known as "the politician's life-saver." A wave of prohibition was sweeping Rome, and Bifrons, a candidate for the Senate, had to declare himself one way or the other to every

third man he met. But he was a foxy Dago, and when he was asked, "Do you drink, Bifrons?" he would slyly ask in return, "Is this an invitation, or do you just want to know?"

Rome had a gate named for Janus. It led from the Palatine to the Quirinal Hill, and was closed only when Rome was at peace with the world. This occurred but four times—under Numa, Augustus Caesar and Vespasian, and after the first Punic War. Julius Caesar kept the gate open wider than anybody. Just to satisfy himself that no other Roman had ever had anything on him in this respect, he once drove twenty loads of hay through the gate abreast, as against a record of fourteen loads.

Another year (mark well the rhyme) has joined the Host of Father Time. The widow recently bereft Will pop the question right and left, And luckless man, of Leap Year butt, Will scramble for the tall uncut.

The sport in Congress will consist of battles with the horney fist, the gentleman Missouri bred will call some one a noodle head; they'll clinch and bite each other's cheek, the frightened galleries will shriek, the Speaker will get out a gun, the man from Arkansas will run, the sergeant will bolt through a door, the fight will spread upon the floor, the clerk will climb the chaplain's back, and the air will sound with Biff and Whack, the War Department will turn out, the Senate will get in the bout, and Fairbanks with triumphant cry, will black Ben Tilman's other eye; the President get his hat, his boxing gloves and trusty bat, and will exclaim on coming back, "All's quiet on the Po to-mack!"

After that we shall have very pleasant weather. The moon will be full on the 18th, and persons we never heard of will be mentioned for vice-president, Christmas presents will be exchanged for something you want, and Japan, hearing that the fleet is to keep right on across the Pacific, will move over on the mainland and dig cyclone cellars.

Persons born in January have cold feet, and do not play poker. If they are born under the influence of Aquarius the water carrier, they will vote dry. They are very ingenious, and know how to turn the gas meter back. They have large families and small incomes. They are good at figures and can tell you whether a woman's shape is real or excelsior. They are slow to marry, but can get a divorce as quick as anybody. They are very shrewd in money matters, and never give their wives the money.

Don't answer the doorbell this month. It's a book agent. Keep the silverware under the coal pile. If you come home late at night, look out for highwaymen, and walk in the middle of the street, as the policeman does. Don't write love letters. She will save them.

The trusts will continue to show us where to head in, and Congress will vote our money like it was their's. The fashionable wintering places for the month will be Southern California and the Florida coast, and all trains bound to those points will be loaded with plasters and bricklayers, with their families.

And then the short lived month of Feb. when women will complete her web, and foolish man will buzz about until the spider dashes out and nails him neatly to the mast for so long as his life shall last.

If you are out of work, or have

spare time, you should get our proposition. No mail order scheme, but a clean straight business, at which others are making money, with no competition. The first acceptable applicant gets your territory. Write today tomorrow may be too late. Particulars free. Dominocards Co., 1807 Chouteau, St. Louis, Mo. But notwithstanding Leap Year's tricks And maids' and widows' weeds, And though our hard luck comes along Just like a string of beads, Cheer up, cheer up! It's not so bad With us as 'tis with Ted, Who had to come to it and knock His third term in the head.

Save This Anyway.

Here is a simple home-made mixture as given by an eminent authority on Kidney diseases, who makes the statement in a New York daily newspaper, that it will relieve almost any case of Kidney trouble if taken before the stage of Bright's disease. He states that such symptoms as lame back, pain in the side, frequent desire to urinate, especially at night; painful and discolored urination, are readily overcome. Here is the receipt; try it:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

A well-known druggist here in town is authority that these ingredients are all harmless and easily mixed at home by shaking well in a bottle. This mixture has a peculiar healing and soothing effect upon the entire Kidney and Urinary structure, and often overcomes the worst forms of Rheumatism in just a little while. This mixture is said to remove all blood disorders and cure the Rheumatism by forcing the Kidneys to filter and strain from the blood and system all uric acid and foul, decomposed waste matter, which cause these afflictions. Try it if you aren't well. Save the prescription.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
